

Where Have The Middle Class Gone

Where have all the middle class gone?

They've gone away one by one.

What will happen when we have no middle class?

Will it make a difference, can we last?

The rich will be at the top and the poor at the bottom.

The poor will depend on the rich.

And the rich, who will they depend on?

No one!

Who will be left to do the work?

Just share the wealth, is what they say.

What wealth will be shared, on that day.

When the middle class, has gone away.

What justification can the rich give,

For the millions they make each day?

When so many are starving,

And trying to find their way.

And you don't need to work or learn.

The government will pay the way.

Oh my dear, I believe we have all,

Lost our way.
